STONE RESIN SHOWER TRAYS

Specification Guide 2005

Shower Tray Specification Guide

All dimensions in this specification guide are nominal, varying to manufacturing tolerances.

All size dimensions shown are taken from the base of the tray, from the outer wall (normally floor level) unless otherwise stated.

The side walls taper to the top of the tray by 5mm approximately, and the top surface is 60mm approx unless otherwise stated.

When selecting a shower tray, particularly when installing with an enclosure, please check adjustments and suitability of the enclosure to the tray and make allowance for size variance and tiles.

When ordering please prefix the two letter MX code with colour required.

e.g. SQUARE SHOWER TRAY 700mm x 700mm
in Ivory - Please quote "Ivory 5A" or "5AJ"
